REPORT ON CANCER AWARENESS IN ASSOCIATION WITH INDIAN CANCER SOCIETY OF INDIA AND DEPARTMENT OF COMMERCE

Venue: Auditorium Date : 15 March, 2019

The department of commerce was aiming to create awareness on Breast cancer and cervical cancer to the girl students of the department. All the girls of the department attended the session. To make the session more meaningful all the girls and the lady faculty were dressed in pink to give more meaning and importance for the program. A total of 297 students attended the programme. The program was done in association with Indian Cancer society, Bangalore.

There were four ladies who had visited the campus, two doctors and two counsellors. Dr. Chethana, a gynecologist and a counsellor at ICS, Bangalore began the session by introducing her team members. The students had a long session about breast cancer by Dr. Chethana. Dr. chethana spoke about the causes of Breast cancer, myths about breast cancer and also how to self examine breast cancer. This was done with the help of a PowerPoint presentation. This was followed by Dr. Kanchan who addressed the girls about the second part of the session, about the causes and reasons for cervical cancer. The girls were alarmed to know the causes and it also gave a reiteration about the importance of HPV vaccination for the girls.

They also showed a small clipping about breast cancer. The doctors also had a lot of charts with important messages to create awareness to the public about cancer.

The session was very important as a lot of girls asked questions and cleared their doubts. The two doctors answered all the doubts and it was a wonderful session. The lady faculty of the department also asked a few questions. The session concluded with a vote of thanks and a beautiful photo taken in the quadrangle of the college with the aids symbol.

It was an eye opener for many of the girls who were not aware about the two cancer which are spreading at an alarming rate. All in all it was a good session and all the girls went back with a lot of information about breast cancer and cervical cancer.
